

### **FLUENCY 1**

Use the number line and stem sentences to round 47 to the nearest 10.

47 falls between 0 and 0.

When rounding to the nearest 10, we have to look at the

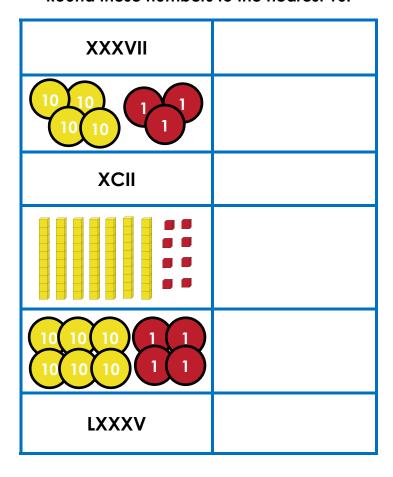

column.

There are \_\_\_\_ ones in 47 so we round \_\_\_\_\_.

47 rounded to the nearest 10 = \_\_\_\_\_

### FLUENCY 2

Round these numbers to the nearest 10.

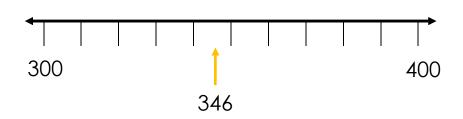

### **FLUENCY 3**

Use the number line and stem sentences to round 346 to the nearest 100.

346 falls between 00 and 00.

When rounding to the nearest 100, we have to look at the

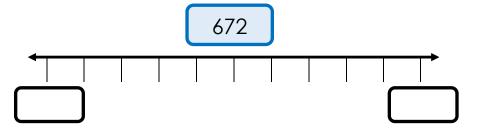

column.

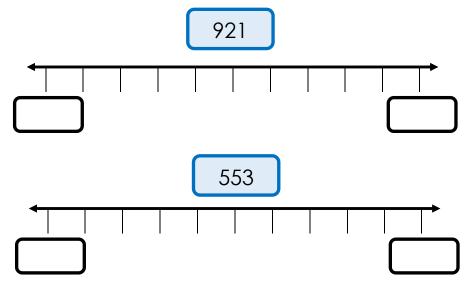

There are \_\_\_\_\_ tens in 346 so we round \_\_\_\_\_.

346 rounded to the nearest 100 = \_\_\_\_

### **FLUENCY 4**

Complete the number lines and write your own stem sentences to round each number to the nearest 100.

### **REASONING 1**

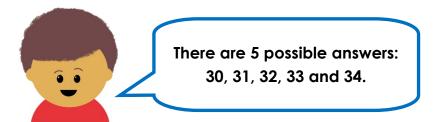

Which numbers could go in the boxes?

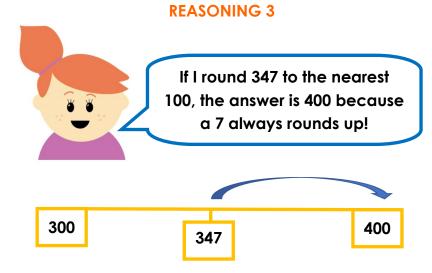

**Explain why!** 

#### **REASONING 2**

A number is rounded to the nearest 10 and the answer is 30.

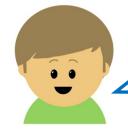

Do you agree with Marlon?

Can you spot Millie's mistake?

### **REASONING 4**

Always, Sometimes or Never?

A number with a three in the hundreds column rounds down to the nearest hundred.

### **PROBLEM SOLVING 1**

Using these 4 digit cards, make numbers that round to these multiples of 100!
