About myHappymind

myHappymind is an award winning, whole school and nursery curriculum. It teaches children preventative habits that support positive mental health, resilience and self esteem.

Taught to every child in a school from Early Years through to Year 6, myHappymind is delivered via an innovative technology platform making learning easy and fun.

All of the concepts we teach are based in science and research and grounded in neuroscience and positive psychology.

We are passionate about supporting teacher wellbeing too and so all schools using the program have access to a teacher wellbeing program.

We are also proud to support parents and carers by providing them with a free app to continue the learning at home. You can learn more about how to access the app in this document.

Celebrate

We have just come to the end of the Celebrate module in the myHappyMind programme. The children have learnt so much through this module including:

- What character strengths are and why they matter.
- How to recognise character strengths in ourselves and others.
- How understanding our character strengths can make us feel.

Why not ask your children to tell you what they have learnt. Here's some questions to help you:

- What is your top Character Strength?
- Which strength would you like to grow and use more?
- Why is it important to spot Character Strengths in other people?

Support your child at home:

Log onto the parent app for more information about the Celebrate module and how you can support your child at home.

There are lots of activities you can do together at home including creating strength spotting glasses, listening to the story and song, plus much more.

To access these materials just go to <https://myhappy mind.org/parent-resources> and enter your name, email, and authentication code.

BY LAURA EARNSHAW

My Happy Mind is the first book from our founder Laura Earnshaw. The book reveals all the science-backed secrets used in our curriculum to empower and educate parents - whether your child is struggling already, or you're interested in future proofing their mental health, there's something in here for everyone.
