	National Curriculum expectations and progression of skills development						
	EYFS	End of Y1	End of Y2	End of Y3	End of Y4	End of Y5	End of Y6
National Curriculum Expectations:	<ul style="list-style-type: none"> <li>Children recognise that a range of technology is used in places such as homes and schools.</li> <li>They select and use technology for particular purposes</li> </ul>	<ul style="list-style-type: none"> <li>Understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions</li> <li>Create and debug simple programs</li> <li>Use logical reasoning to predict the behaviour of simple programs</li> <li>Use technology purposefully to create, organise, store, manipulate and retrieve digital content</li> <li>Recognise common uses of information technology beyond school</li> <li>Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies.</li> </ul>		<ul style="list-style-type: none"> <li>Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts</li> <li>Use sequence, selection, and repetition in programs; work with variables and various forms of input and output</li> <li>Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs</li> <li>Understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration</li> <li>Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content</li> <li>Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information</li> <li>Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.</li> </ul>			
Computers and Using Computers		<ul style="list-style-type: none"> <li>Recognise common uses of information technology in the home and school environment</li> <li>Use technology to purposely create digital content</li> </ul>	<ul style="list-style-type: none"> <li>Recognise common uses of information technology beyond school</li> <li>Use technology to purposely create, organise, store, manipulate and retrieve digital content</li> <li>Use technology to purposely create digital content comparing the benefits of different programs</li> </ul>	<ul style="list-style-type: none"> <li>Recognise familiar forms of input and output devices and how they are used</li> <li>Make efficient use of familiar forms of input and output devices</li> <li>With support select and use a variety of software to accomplish goals</li> </ul>	<ul style="list-style-type: none"> <li>Use other input devices such as cameras or sensors</li> <li>With support select and use a variety of software on a range of digital devices</li> <li>With support select, use and combine a variety of software on a range of digital devices to accomplish given goals</li> </ul>	<ul style="list-style-type: none"> <li>Independently select and use appropriate software for a task</li> <li>Independently select, use and combine a variety of software to design and create content for a given audience</li> </ul>	<ul style="list-style-type: none"> <li>Independently select, use and combine a variety of software to design and create content for a given audience, including collecting, analysing, evaluating and presenting data and information</li> <li>Design and create a range of programs, systems and content for a given audience</li> <li>Independently select, use and combine a variety of software to collect, analyse, evaluate and present data and information</li> </ul>

E-Safety		<ul style="list-style-type: none"> <li>Understand where to go for help and support when he/she has concerns about content or contact on the internet or other online technologies</li> </ul>	<ul style="list-style-type: none"> <li>Use technology safely and keep personal information private</li> </ul>	<ul style="list-style-type: none"> <li>Use technology safely and respectfully, keeping personal information private</li> <li>Use technology safely and recognise acceptable and unacceptable behaviour</li> </ul>	<ul style="list-style-type: none"> <li>Use technology responsibly and understand that communication online may be seen by others</li> <li>Understand where to go for help and support when he/she has concerns about content or contact on the internet or other online technologies</li> </ul>	<ul style="list-style-type: none"> <li>Understand the need to only select age appropriate content</li> </ul>	<ul style="list-style-type: none"> <li>Use technology respectfully and responsibly</li> <li>Identify a range of ways to report concerns about content and contact in and out of school</li> </ul>
Coding		<ul style="list-style-type: none"> <li>Predict the behaviour of simple programs</li> <li>Understand what algorithms are and how they are implemented on digital devices</li> </ul>	<ul style="list-style-type: none"> <li>Use logical reasoning to predict the behaviour of simple programs</li> <li>Create simple programs</li> <li>Create and debug simple programs</li> <li>Debug simple programs by using logical reasoning to predict the actions instructed by the code</li> <li>Understand that programs execute by following precise and unambiguous instruction</li> </ul>	<ul style="list-style-type: none"> <li>Design, write and debug programs that control or simulate virtual events</li> <li>Use logical reasoning to explain how some simple algorithms work</li> </ul>	<ul style="list-style-type: none"> <li>Decompose programs into smaller parts</li> <li>Use logical reasoning to detect and correct errors in algorithms and programs</li> <li>Select, use and combine a variety of software, systems and content that accomplish given goals</li> </ul>	<ul style="list-style-type: none"> <li>Design, input and test an increasingly complex set of instructions to a program or device</li> <li>Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems</li> <li>Design, write and test simple programs that follow a sequence of instructions or allow a set of instructions to be repeated</li> <li>Design, write and test simple programs with opportunities for selection, where a particular result will happen based on actions or situations controlled by the user</li> <li>Use logical reasoning to explain how increasingly complex algorithms work to ensure a program's efficiency</li> </ul>	<ul style="list-style-type: none"> <li>Include use of sequences, selection and repetition with the hardware used to explore real world systems</li> <li>Solve problems by decomposing them into smaller parts</li> <li>Create programs which use variables</li> <li>Use variables, sequence, selection and repetition programs</li> <li>Use logical reasoning to explain how increasingly complex algorithms work and to detect and correct errors in algorithms and programs efficiently</li> </ul>

Networks				<ul style="list-style-type: none"> <li>• Understand that computer networks enabling the sharing of data and information</li> <li>• Understand that the internet is a large network of computers and that information can be shared between computers</li> </ul>	<ul style="list-style-type: none"> <li>• Understand what services are and how they provide services to a network</li> </ul>	<ul style="list-style-type: none"> <li>• Begin to use internet services to share and transfer data to a third party</li> </ul>	<ul style="list-style-type: none"> <li>• Understand how computer networks enable computers to communicate and collaborate</li> <li>• begin to use internet searches within his/her own creations to share and transfer data to a third party</li> </ul>
Net Searching				<ul style="list-style-type: none"> <li>• Use simple search technologies</li> <li>• Use simple search technologies and recognise that some sources are more reliable than others</li> </ul>	<ul style="list-style-type: none"> <li>• Understand how results are selected and ranked by search engines</li> </ul>	<ul style="list-style-type: none"> <li>• Use filters in search technologies effectively</li> <li>• Use filters in search technologies effectively and appreciate how results are selected and ranked</li> </ul>	<ul style="list-style-type: none"> <li>• Use filters in search technologies effectively and is discerning when evaluating digital content</li> </ul>
